South East Boat Modelers

Pirate Fleet

Booty Calls

From the Harbor Master

Ahoy Mates,

Here we are again. We had two meetings, in the hot sun of July, our regular meeting and the Cure Picnic. Which was a great success and gratifying experience to show some kids a great time. I have some fun stuff to show you here and as usual, I'm glad to present it. I also want to thank B & B Hobby for the toys they donated to the Cure event.

Anyways, I received two emails that I am going to pass on to you guys that I thought were fit to be posted on the newsletter. The first is from our commodore, Matt.

From the Commodore

First I'd like to thank every one that came out to the Cure Picnic and volunteered there time and models for a very special event. I took a head count and we actually had 15 models on the water at one point during the day.

The kids had a great time and the Parents and the promoters repeatedly thank us for our participation.

Phil Pace brought out his large fleet of models and the soccer boat set up along with a very impressive Volcano that spewed smoke every few minutes.

Tom Eagles came all the way from South Carolina to participate and Doug and Carey Provided Trailer and Generator support to keep us up and running.

The second is from Frank Perry. I hope you will enjoy them as much as I.

The next regular club meeting is on the August 19th. It is our **Annual Picnic and Night Float at Briscoe Park. 6:00 PM - 10:00 PM.** Some will be there earlier.

Lakeside Pavilion as usual. Details about food cooking, etc... to follow. On <http://www.vac-u-boat.com/club.htm>

Visitors to the club are always welcomed. Just bring us some food. And some glow sticks.

No grog though. Sorry.

Aaaaaaaaarrrrrrrr, Chris

Cure Participants

1st Officer Phil and Commodore Matt

Every one put out a great effort for the Kids and it was all very worth the time spent.

On a Sad note One of Ray Warren's models was lost to Davey Jones' Locker. I'm not sure what led up to the sinking but it went down too fast to save. We're looking for a volunteer diver to go hunt for her, any scuba divers in the group?

All things considered, it was the best CURE Picnic to date, and the most models in the water ever for the event.

Ok time for a shower, a cold drink and a good movie.

Matt Spade

Update: Ray's boat has been rescued.

Frank's Harbor

Frank and his new sailboat

I received this email from one of our club members, Frank Perry; it shows some of the insight and sentiment that I want to share with all of you. Thank you Frank for writing this wonderful article.

This is an effort to get inside a child's head for a viewpoint.

"I am back at the hospital. They took off my clothes, socks and shoes and put on my hospital gown. Here comes the nurse again. Does she have a needle, a tube, or just a pill? Now, they are lifting me on a gurney and wheeling me down the hall, then down the elevator and into a cold room. I start shaking from the cold and from guessing what they are going to do to me. They lay a warm blanket over my body and it feels so good that I stop shaking.

The technicians lift me onto a long bed and strap me down so I cannot move. Then they move a big machine over me. All I can think about is the happy time I had at

the lake.

All those men let my friends and me run their pretty colored boats across the water.

I can picture some sailboats, tugboats, and speedboats.

I am sorry I drove my boat up on the rocks and my friend is sorry his boat sank underwater.

I don't know if I will be strong enough to fight this cancer and be back next year at the lake.

My parents and my pastor pray for me. The doctors, nurses, and technicians keep encouraging me.

It is more fun to fill my mind with pictures of the fun time at the lake."

*Cordially,
Frank*

Fun time Lakeside

Lots of boats

Phil's Corner

Phil and "Trash" got into a heated battle at the lake. I think Phil won and they kissed and made up.

Mister Mister

Believe it or not. With the exception of a small group of teens that Matt quickly took care of, there wasn't really a lone, single, Mister Mister at the lake to mention. We must be in store for a big one next month. I'll bring some earplugs. And maybe we can hide in Carey or Doug's trailer.

More Boy's Toys

Does anyone else see a resemblance? Just though I would ask.

Before and After ?

Black Magic tries to put out the volcano

Harbor Master Chris and Paul

New Rescues

Update: Davey Jones gives It up

Ray's Tony Warren

Phil rescued Ray's sunken Boat, the Tony Warren. He retrieved the hull in 15-foot waters with an ocean reel fishing rod and treble hooks. On Phil's third cast, he snagged the boat and reeled it in, to the amazement of himself and onlookers that thought he was just fishing. The boat is in repairable condition with only slight damage. Wonderful news! Great job Phil. Now where's the picture of you holding the rod and your catch?
